Department of Transportation

Notice to Consulting Engineering Firms

The Kansas Department of Transportation is seeking qualified consultant engineering firms for the projects listed below. Responses must be received by July 13 for the consulting engineering firm to be considered. Seven signed copies of the response should be mailed to Mike Stock, P.E., Production Control Engineer, Office of Engineering Support, KDOT, 7th Floor, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612.

The Consultant Selection Committee requests that any firm wishing to be considered for more than one project list those projects on a single submittal. Also, the consulting firm need not submit information used by the Pre-Qualification Committee to approve a request to be pre-qualified for the categories of "Highway Design-Minor Facility" or "Highway Design-Major Facility," "Engineering Surveying" and "Multi-span Bridge Design."

Projects:

283-69 K 5752-01 Norton County

The project is located on US-283, beginning at the junction of US-36 in Norton thence north to the Kansas-Nebraska state line. The project length is 18.2 km (11.4 miles). The scope of improvement includes roadway reconstruction including shoulders and extending culverts as warranted. The intersections with major crossroads will be improved with acceleration and deceleration lanes. The pre-construction activities are scheduled to be completed by March 2000. The estimated construction cost is \$15,155,000.

73-52 K 5762-01 Leavenworth County

The project is located on US-73, beginning 2.3 km (1.4 miles) northwest of junction of K-192 thence northwest to the Leavenworth-Atchison county line. The project length is approximately 5.3 km (3.3 miles). The scope of improvement includes roadway reconstruction including shoulders and extending culverts as warranted. The intersections with major crossroads will be improved with acceleration and deceleration lanes. The pre-construction activities are scheduled to be completed by November 1999. The estimated construction cost is \$5,286,000.

Project 73-52 K-5762-01 will be tied to project 73-3 K-5761-01. Project 73-3 K 5761-01 was advertised in the Kansas Register June 22, 1995, and also in this issue. Since these two projects are tied, the closing date for the advertising of project 73-3 K 5761-01 will be extended to July 13.

75A-89 K 5930-01 Shawnee County

The project is located on US-75A (Topeka Avenue) over the Kansas River. The design services will include a design study report to determine the scope of improvement to this bridge repair project and the preparation of the construction plans. The pre-construction activities are scheduled to be completed by June 1997. The estimated construction cost is \$750,000.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly

qualified (not less than three, not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of projects at hand. Firms not selected to be shortlisted will be notified by letter.

The Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conference. The Negotiating Committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

It is the policy of KDOT to use the following criteria as the basis for the selection of the engineering consultant firms:

- 1. Size and professional qualification.
- Experience of staff.
- 3. Location of firm with respect to proposed project.
- 4. Work load of firm.
- Firm's performance record.
